

M.J. Eriksson is looking for a QA/QC Manager

Our team in Jutland, Denmark, is looking for an experienced QA/QC Manager to run the quality operations on large civils and structural projects

You and the job functions

We are looking for an experienced Civils/Structural QA/QC Manager to join our teams on the larger projects in Jutland, Denmark. You must be a team player and be structured in your work. It is important that you thrive by taking responsibility and consider your responsibilities to be a journey where new requirements and tasks constantly arise.

The QA/QC Manager will have the responsibility for all quality works on the projects on which you are appointed.

We see you with a background as:

- Civils and/or Structural Engineer with 5+ years' experience.
- Being experienced in QA/QC on large scale builds.
- Being a team player.
- Willingness to lead a team of QA assistants if the project requires it.
- Being willing to re-locate to Denmark if you are not already living in Denmark.
- Being proficient in English and thrive on international projects.

It is a requirement that you have a driver's license, as the projects we are involved in are in various locations.

Confidentiality

By sending us your details you accept that we can keep and register your information for the duration of the search process. Following this we will delete your application. You can at any time recall your acceptance of us storing your details by writing to mok@mje.dk.

M. J. ERIKSSON A/s

About Us

M.J. Eriksson is one of the largest civils contractors in Denmark with an annual revenue of 2 billion DKK and more than 600 employees.

We are present in all of Denmark and participate in the largest civil contracts in Denmark.

We are active within infrastructure, data, utilities, harbors, dewatering etc. and we are constantly expanding and growing. This leaves plenty of career opportunities for the right candidate.

M.J. Eriksson operates under a very flat organizational structure where the distance between decisions and action is short.

You should expect to meet highly motivated colleagues and the willingness to succeed is predominant.
